

## **Schools Without Borders World No Tobacco Day Celebration 2007**

On May 30, 2007 the Schools Without Borders Sault Ste. Marie youth committee celebrated the upcoming World No Tobacco Day with an evening celebration show casing their amazing initiatives throughout the one year anniversary of the Smoke-Free Ontario Act. This occasion was an opportunity for committee member's friends and family to learn more about the tobacco control issues important to youth and the creative ways they are reaching their peers and the general public. Guests heard about the experiences of working with the media, presenting at workshops, attending conferences, hosting events and gaining valuable experiences and skills by committee members for their future education and career plans. Algoma Medical Officer of Health Dr. Allan Northan was on hand to help recognize Schools Without Borders committee members with certificates for their hard work and dedication to tobacco control
