The Blind River Advocates Against the Tobacco Industry (BRAATI) participated in this year's community day parade. Our theme was Smoke-Free Cars, and we got creative with our ideas. With our key message "Youth support smoke-free cars!" on a huge banner and our cardboard cars "Driven" by youth, we paraded our message and received a lot of support from the community. Our hand-outs and info sheets really helped give our message that extra push in gaining public support for smoke-free cars.
