Notes to Financial Statements – December 2016

Reporting Period

The December 2016 financial reports include twelve months of financial results for Public Health and the following calendar programs; Healthy Babies & Children, Child & Dental Benefits Ontario Works, and Algoma CADAP programs. All other programs are reporting nine month results from operations year ended March 2017.

Statement of Operations (see page 1)

Summary - Public Health and Non Public Health Programs

As of December 31st, 2016, Public Health programs reported a \$475k positive variance.

Total Public Health Revenues indicate a positive \$36k variance. Fees, Other Grants & Recoveries indicate a negative \$98k variance. In an effort to balance the budget, recognition of \$165k deferred revenue was planned for 2016. Management determined this was not required which impacted the negative variance related to Other Revenues. HST recoveries helped to offset this negative variance. Further offsetting this negative variance was the \$139k positive variance associated with Provincial Grants – Funding from prior years. This is associated with 2015 approved and settled one-time funding requests related to the Interim CEO Position and New Purpose-Built Vaccine Refrigerators.

There is a positive variance of \$440k related to Total Public Health Expenses being less than budgeted. The \$498k positive variance associated with Salary & Wages drove this positive variance. This is a result of vacant positions which were gapped in 2016. Management posted for a part-time clerical in Wawa and a full-time Manger of Human Resources. In addition, the MOH position which was vacant in 2016 contributed to the noted variance. In 2017, the size of the salary and wages positive variance should reduce. The Board of Health approved the purchase of IT network servers in November 2016. The IT server purchase was made in December 2016 and helped to reduce the size of the positive variance.

Community Health Calendar programs are reporting a \$63k positive variance.

On the revenue side, \$305k positive variance is associated with Dental Benefits Ontario Works as these funds were not originally budgeted. This is being offset by the corresponding \$297k negative variance related to expenses within the Dental Benefits Ontario Works program that have also not been budgeted. This represents an agreement between APH and Ontario Works where Ontario Works Compensates APH for Dental Service administration. Costs incurred are absorbed by the Revenues received.

On the expense side, a \$28k positive variance is associated with the Algoma CADAP programs. APH Management was anticipating a surplus related to Algoma CADAP programs.

Community Health Fiscal programs are operating within budget.

Page 14 of 36

Notes Continued...

On the Expense side, the Northern Ontario Fruit & Vegetable Program is indicating a positive variance as a result of timing of expenditures not yet incurred. This is due to funding being postponed as a result of forthcoming changes with regards to the designated funding agency within the Ministry. As the year progresses, it is anticipated that all Community Health Fiscal programs will be within budget.

Public Health Revenue (see page 2 for details)

Public Health funding revenues show a positive \$36k variance.

The municipal levies were within budget.

Provincial Funding Grants were within budget.

There is a negative variance of \$98k associated with Fees, Other Grants & Recoveries. In an effort to balance the budget, recognition of \$165k deferred revenue was planned for 2016. Management determined this was not required which impacted the negative \$88k variance related to Other Revenues. Most Program fee revenues were less than budgeted as well. The positive variance associated with Recoveries from Programs as a result of HST recoveries helped to offset this negative variance. In addition, the positive \$35k variance associated with Program Fees Immunization helped to offset this negative variance.

Public Health Expenses (see page 3)

Benefits

Benefits indicate a positive variance of \$269k. The two vacant positions which were gapped for most of the year and the MOH position which was vacant in 2016 contributed to the positive variance noted. APH has posted for a part-time clerical position in Wawa and for a Manager of Human Resources. The MOH/CEO position has been filled. These actions should help to reduce the positive Benefits variance with regards to the 2017 Operating Budget.

Travel (Mileage, Other)

Travel (Mileage) shows a positive \$30k variance. Travel (Other) shows a positive \$19k variance. The 2017 Operating Budget has been revised to more accurately reflect actual travel expenses.

Program

Program expense indicates a negative \$223k variance. The purchased services for the Acting MOH and Associate MOH roles drove the noted variance. The positive variance associated with Salary & Wages Page 15 of 36 helped to offset the added purchased service expenses. In addition, actual program material and supplies in the Sexual Health and VPD programs were greater than what was budgeted. The budget was reduced in 2016 but has been revised to more accurately reflect actual costs incurred in 2017.

Notes Continued...

Office

Office expense indicates a negative \$39k variance. This is a result of Xerox expenses being budgeted in Facilities and Maintenance expenses and being charged to Office Expense. Management has revised the 2017 Operating Budget to ensure Xerox expenses are budgeted and charged to Office expense.

Computer Services

Computer Services shows a negative variance of \$150k. Contributing to this negative variance was the Cisco phone contract which was budgeted in Computer Services but charged to Telecommunications. Management has revised the 2017 Operating Budget to ensure the Cisco phone contract expenses are budgeted and charged to Telecommunications. The Board of Health approved the purchase of IT servers which was made in December 2016 and contributed to this negative variance.

Telephone Charges

Telephone Charges indicate a positive variance of \$28k. This is a result of Management's decision to change cell phone providers.

Telecommunications

Telecommunications indicates a negative variance of \$113k. This is a result of the Cisco phone contract being budgeted in Computer Services but charged to Telecommunications. Management has revised the 2017 budget to ensure the Cisco phone contract expenses are budgeted and charged to Telecommunications. In addition, upgraded network technology related to APH's new Elliot Lake offices contributed to this negative variance.

Program Promotion

Program Promotion shows a positive variance of \$119k. This is a result of budgeted Media dollars aligned to general agency needs that have historically been unspent. Revisions to the budgeted Program Promotion figure have been implemented in the 2017 APH Operating Budget.

Recoveries

Recoveries are indicating a negative variance of \$47k. This is a result of recoveries being less than budgeted. Revisions to the budgeted Recoveries figure have been implemented in the 2017 Operating Budget.

Non Public Health Programs Revenue and Expenses (see page 1)

Page 16 of 36

All Non Public Health Programs are operating without budget issues.

Notes Continued...

Financial Position - Balance Sheet (see page 7)

Our cash flow position continues to be stable and the bank has been reconciled as of December 31st, 2016. Cash includes \$324k in short-term investments.

Long-term debt of \$5.846 million is held by TD Bank @ 1.95% for a 60 month term (amortization period of 180 months) and matures on September 1, 2021. \$341k of the loan relates to the financing of the Elliot Lake office renovations with the balance related to the financing of the 294 Willow Avenue facility located in Sault Ste. Marie.

There are no collection concerns for accounts receivable.

NOTE:

Year-end Balance Sheet Figures have not been completed as of December 31st, 2016. The Final Balance Sheet will be available with the completion of Audited Financial Statements.
