| How the IPAC Lapse was identified | Public complaint received on June 14, 2019 regarding use of used nail equipment on the client during a service. |
| Summary Description of the IPAC Lapse | Reusable equipment, instruments and work contact surfaces were not being adequately cleaned and disinfected between each use on clients. Single-use items being used on multiple clients. |

IPAC Lapse Investigation

| | |
|--|---|
| Did the IPAC Lapse involve a member of a regulatory college? | No |
| If yes, was the issue referred to the regulatory college? | N/A |
| Were any corrective measures recommended and/or implemented? | Yes – a preliminary investigation was conducted on June 14, 2019. During this investigation, several violations of Ontario Regulation 136 Personal Service Settings were observed. Some of the infractions noted were corrected during the investigation; others required additional time and a re-inspection was set for a later date. |
| Please provide further details/steps | Education was provided to the operators of the premises regarding cleaning and disinfection of re-usable equipment. Education was also provided on the proper use and disposal of single-use items. |
| Date any order(s) or directive(s) were issued to the owners/operators (if applicable) (yyyy/mm/dd) | No formal order issued. |

Initial Report Comments and Contact Information

| | |
|---|---|
| Any additional comments. (Do not include any personal information or personal health information) | Operators will be required to complete infection prevention and control training, to prevent and reduce the risk of disease transmission, which will be provided by Algoma Public Health. |
|---|---|
