Vaccine Temperature Log Book	7610-1908-0	7610-1908-0F	1		

By submitting this order, I verify on behalf of the practice that:

- The vaccine fridge has maintained temperatures between +2°C to +8°C.
- Temperatures (minimum, maximum, and current) are documented and cleared twice daily.
- All temperature excursions outside of +2°C to +8°C have been reported to APH, and any recommendations from APH regarding use of the affected vaccines and proper storage have been implemented by the practice.
- A contingency plan is in place should a power outage, fridge failure and/or cold chain incident occur.
