DISINFECTING TIPS

- 1 Clean and rinse all surfaces with detergent and warm water before you disinfect.
- 2 Solution must be made fresh daily to preserve strength.
- 3 Household bleach solution is 5.25% sodium hypochlorite (bleach) solution.

NOTE: These mixing instructions only apply when 5.25% bleach is used. Not all bleach products are 5.25% sodium hypochlorite. Refer to the product label to verify the concentration.
